DUO-S

EN54-23 approved high output sounder and Dual LED strobe

This triple high output EN54 compliant LED strobe with siren provides a high efficiency, low power solution for alarm signalling in an easy to install design.

Multiple flash modes enable warnings and alarms to be signalled visually and audibly.

The pre-alarm and alarm modes are individually monitored and operate different flash functions.

This integrated audible and visual alarm device has a unique first fix installation method in the base enabling quick installation to provide a competitive solution.

The high quality and robust design ensures that the user has trouble free operation over the life of the product, even in tough environments.

With a range of selectable flash options, the product is suitable for a wide range of applications.

Key Features

Quick First fix installation
Wide operating voltage
Low power consumption
High output mode
Individual reverse polarity monitoring of prealarm and alarm circuits
32 tones
Selectable flash options
Fully synchronised
IP65 rated with Deep base
Large EN54-23 coverage area

Key Benefits Reduces costs where

Reduces costs where multiple VAD are required.

Full synchronisation across tones and flashes on all products in the range enabling very flexible system upgrades and changes.

Cover areas with fewer devices to reduce installation costs

Robust and reliable lower maintenance costs

Robust and reliable, lower maintenance costs

High specification and efficiency simplifies product selection

Hospitals, Shopping Malls, Commercial, Marine and Industrial sites. Where 2 stages of visual alarm are required with a high output Where low power consumption is required with a high light output

<u>Product data</u>

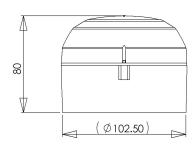

Specification

	Compliant operating range	Maximum Operating range	
Supply voltage range	18—56 V dc	18 - 56V dc	
VAD Current consumption	20mA to 60mA dependent on setting		
Sounder Current consumption	10mA to 30mA dependent on setting		
Cable monitoring	Individual reverse polarity monitoring on both Pre-alarm and Alarm circuits		
Terminal size	0.28 to 2.5mm² conductor		
LED Configuration	Red and White LED's (Red above White)		
Mounting	Wall		
Sound output	92dB(A) to 110dB(A) depending on tone		
Selectable tones	32 Tones, 3 Tones EN 54 approved		
EN54 –23 coverage	See table A below		
EN54 –23 coverage	Up to 720m³ (depending on setting)		
Flash options	High and low output, 1s and 2s flash rates DIL switch selectable		
Material	V0 rated ABS base, V0 Polycarbonate lens		
Weight	427g		
Base colour	White or Red		
Lens colour	Clear and Red		
Fixing method	Body to base - Bayonet auto connect, Base to wall - Screw		
Operating temperature	-25°C to +75°C		
IP Rating	Type B and IP65		

VAD coverage

Switch Number	Function	NB100 VAD EN54-23 code / coverage volume	
1 2 3		WHITE flash	RED flash
000	1s Low power	W-3-8/192m ³	W-2.4-7/117m ³
0 0 1	1s High power	W-5-12/720m ³	W-2.4-9.5/216m ³
0 1 0	2s Low power	W-3-8/192m ³	W-2.4-7/117m ³
0 1 1	2s High power	W-5-12/720m ³	W-2.4-9.5/216m ³
